

**Ever wonder where you might have saved notices of upcoming events and Zoom links? And had to search and sort to find them? Here are some ideas for keeping the events “on hand” and making them simpler to find.**

- The Monthly Calendar email can be saved in a designated email folder on your computer.
- Each Monthly Calendar email has a PDF document of the entire Calendar that can be saved wherever you like to save. The message looks like this, in the general links to items, near the top of the page: **Download Eckankar in WI Events Calendar** as a PDF.
- For online public events, the “Eckankar in Wisconsin Online” Meetup site lists all the online public events in one place.
- The new website – coming soon – will show upcoming public events front and center, on the home page.
- In the meantime, they are also available on the current website in the “Public Events” at the top of the homepage or *The Divine Current* newsletter, pictured on the home page. Student events are in the initiates newsletter on the “Initiates” page.
- On the current website, you can also click on the picture of the current newsletter and then save it in your computer files.
